The taxpayers of Mexico are all interested in having business men elected to the Council this spring. Mexico to-day has a Council composed of substantial, conservative, straightforward business men; and the Lembers trusts that they will be returned, or men equally as interested in the welfare of Mexico, will be elected in their places. It is very important at this time that Mexico should have the very best men in the city in the Council.

Younger Says He Will Not Appear in Any Performance and Means to Keep Within the Con-

best men in the city in the Council.

This word "hustle" much used in connection with the American newspaper has recently been defined as "brag." This is an error. The genulae "hustler" is the man who puts his heart into his work, develops initiative, goes out for business and stays out until he gets it. There is no perfunctoriness about the hustler, and perfunctoriness is the dry rot of the newspaper and every other calling Hustle without hurry is not a had motto, where business of any kind has to be got out of hand in a limited time, and profit or reputation has to be made.

And Tired, Fretted Mothers

> Find Comfort in Guticura Soap and Ointment

When All Other Remedies and Physicians Fail.

Instant relief and refreshing sleep for skin-tertured bables and rest for tired, worried mothers in warm baths with Cuticura Soap, and gentle anoint-ings with Cuticura Ointment, purest of emollient skin cares, to be followed in severe cases by mild doses of Cuticura Resolvent Pills. This is the purest, sweetest, most speedy, neuroset and emoillent skin cures, to be followed in severe cases by mild doses of Cuticura Resolvent Pills. This is the purest, awestest, most speedy, permanent and economical treatment for torturing, disfiguring, itching, burning, bleeding, scaly, crusted and pumply skin and scaly humours, with loss of hair, of infants and children, as well as adults, and is sure to succeed when all other remedies and the best physicians fail.

The agonizing itching and burning of the skin, as in eczema; the frightful scaling, as in psoriasis; the loss of hair and crusting of the scalp, as in scalled head; the facial disfigurement, as in pimples and ringworm; the awful suffering of infants, and anxiety of wornout parents, as in milk crust, tetter and salt rheum,—all demand a remedy of almost superhuman virtues to successfully cope with them. That Cuticura Scap, Olutment and Pills are such stands proven beyond all doubt. No attement is made regarding them that is not justified by the strongest evidence. The purity and sweetness, the power to afford immediate relief, the certainty of speedy and permanent economy have made them the standard skin cures and humour remedies of the civilized world.

JEFFERSON CITY, Mo., Feb. 18 -Those who have given careful atten-tion to the crimes and criminals say that our crimnals during the past ten years have increased 75 percent, while the population has increased 21 per cent; and that 90 per cent of those criminals come from the army of neglected children in this land of a boasted christian civilization. Think of it, ye parents who allow your boys and girls to run at large. Think of it, ye christian men and women, who pass by the orphan boy or girl without so much as a kind word. Out of 200 men in the St. Louis work house, only four remained at home until 21 years of age. All the balance were turned

oose as boys to run at large. In the St. Louis House of Refuge said to be one of the best institutions of its kind in America, there are 296 boys and girls-four-fifths of them were turned out at a tender age to 'root hog or die." At the Reform School at Booneville

there are 350 boys, only 91 bave father and mother alive—all the balance turned loose in youth to find the path that leads to glory or the gallows. During the years 1901 and 1902, 1674 persons were taken to the penitentiary at this city. Of this number, 1054 were fatherless; 914 were motherless; 990 had no trade or calling, and 1322 were under 30 years old.

What a crop of criminals the present generation is growing! Dependent children thrown out at a tender age upon a cold and thoughtless world. They drift along awhile and then drop to the low level of a poor depender boy or girl, and then become hardered, and then ripen into criminals. Think of the fact that a large per

centage of the 250,000 persons who each year pass though city and county jails n this beloyed land of ours are under 16 year of age. And that a majority of all the criminals in the United States are under 22 years of age!

Watchman, what of the nights? Whither are we drifting? of heredity. Students have investi-gated and vouch for the fact; the offspring of one abndoned girl, thrown out by death of parents upon the cold charities of a cold word, traced in the jails of that city more than 8,000 children under 16 years of age;

these same jalis contained less than 1,600 and during the third year less than 400."

We offer One Hundred Dollars B any case of Catarrh that cannot be Hall's Catarrh Cure. than 400." bill provides for a juvenile The ourt before which any child "who has not proper parental care or guardianhip, who habitually begs, or who is found in any bouse of ill fame, or any vicious or disreputable person, or whose home by reason of neglect, cruelty or depravity on the part of its parents guardian or other person is whose care it may be, may be taken and the facts in the case inquired into, etc., etc." If the interest of the hild, or of the community, or of the State calls for its seizure, then the reform school or some such institution or committed to the care and custody

while during the past year of the

Colds

"I had a terrible cold and c hardly breathe. I then tried Ayer's Cherry Pectoral and it gave me im-mediate relief." W. C. Layton, Sidell, Ill.

How will your cough be tonight? Worse, prob ably. For it's first a cold, then a cough, then bronchitis or pneumonia, and at last consumption. Coughs always tend downward. Stop this tendency by taking Ayer's Cherry Pectoral, Them steen

Acute colds often cause con
